

Birchland Plywood-Veneer Limited

Sept 20, 2008

ANNOUNCEMENT

INTRODUCING...  **HARDWOOD PLYWOOD**

Birchland Plywood-Veneer Ltd. is pleased to introduce BGreen™ Hardwood Plywood. These products (itemized below) are designed to meet or exceed current emissions standards put in place by North America's "Green" building initiative, including the LEED program. All BGreen™ products are available in standard and FSC Certified.

No added formaldehyde Veneers in any species are produced at our own veneer mill located in Thessalon Ontario.

- ✓ BGreen™ Particleboard Core: Standard NAUF particleboard core panels laminated using no-added urea formaldehyde resins.
- ✓ BGreen™ MDF Core: Using an MDF core product produced with a formaldehyde free adhesives providing a cost-effective no added urea formaldehyde panel.
- ✓ BGreen™ Veneer Core: - Using domestically produced veneer cores produced with no added formaldehyde resins.
